The Best

Nursery

Stock

ALLEN L. WOOD

*A*S ACTIVE head of Woodlawn Nurseries I am glad to extend personal greetings to the many thousands of friends and customers who receive this catalogue. I hope you will find it helpful in selecting the most worth-while shrubs, plants, trees and bulbs, the kinds that will help make your homes beautiful and your orchards and gardens profitable.

‘EVER SINCE I started as a boy, over half a century ago, raising Cuthbert Raspberries on one acre of ground given me by my father, I have been growing and selecting the best stock that can be found in this, “The Flower City,” one of the leading nursery centers of the country. They call me a crank—other nurserymen and growers in these parts—because I grade my stock so closely, insisting that only the choicest, heaviest, most vigorous and best-rooted plants that can be grown be saved for my customers. Everything else is rejected no matter what the loss.

‘I AM *glad* to be called a crank, because I know that means the very finest quality in every tree and plant that leaves our packing cellar. That means not only satisfied customers but *pleased* customers who recommend our stock to their neighbors and friends.

‘THIS IS why thousands upon thousands now buy their nursery stock direct from Woodlawn Nurseries. They have learned that they not only get dependable stock—the very choicest—but at surprisingly reasonable prices. They have learned thus to save the expense of a middleman or agent and avoid mistakes and injuries that occur through repeated handling.

‘WE HAVE tried to make this catalogue the best we have ever had, and I hope you will find it so interesting and helpful that you will make out your order and mail it in right away. If you have never bought nursery stock before, turn to page 13 where you will find some suggestions that will guide you in making suitable selections. Index is on inside back cover.

Names of Your Gardening Friends Don't forget to send us the names of some of your gardening friends who might like to receive a copy of this catalog. Space at the bottom of this order blank is provided for that purpose. Your friends will appreciate this and it will help us to enlarge our list of prospective customers.

Names of Your Gardening Friends Don't forget to send us the names of some of your gardening friends who might like to receive a copy of this catalog. Space at the bottom of this order blank is provided for that purpose. Your friends will appreciate this and it will help us to enlarge our list of prospective customers.

Any Friends of Yours who you know would like a copy of our catalog, will receive one promptly, if you give us their names and addresses below.

Any Friends of Yours who you know would like a copy of our catalog, will receive one promptly, if you give us their names and addresses below.

[illegible]

PARTIAL VIEW OF OUR PACKING CELLARS WHERE YOUR ORDERS ARE FILLED—WITH A GLIMPSE OF ONE OF OUR NURSERIES IN THE BACKGROUND—PICTURE AT RIGHT SHOWS HOW WE PACK OUR FRESH DUG STOCK TO REACH YOU IN GOOD CONDITION.

UNEXCELLED FACILITIES—Our farms where we grow our stock are now located in the beautiful Genesee Valley, where conditions are ideal for producing the best. Offices and packing cellars still remain in the city. Our packing cellar, covering over an acre of ground, where the sun and wind cannot dry up the roots of stock is where your orders are packed. Each order is packed carefully so that it will reach you in fresh condition.

IT IS EASY TO ORDER—Just fill in the enclosed order blanks being particular to specify just what is wanted. Your name, postoffice and shipping point should be written plainly to avoid mistakes. If in doubt as to whether your stock should go forward by express or freight, leave it to us and we will use our best judgment. Prices are F.O.B. Rochester, except as noted. No charge for packing.

TERMS—Cash with order. We ship C.O.D. if 25% of the total amount of your order is sent in advance.

HOW TO REMIT—Preferably by check, postoffice money order, express money order, draft or registered letter.

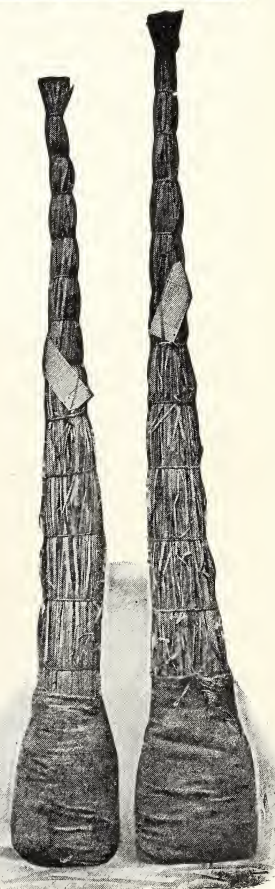

RATES—Five or more at ten rate. Fifty or more at hundred rate. Four hundred or more at thousand rate.

PARCEL POST—Is often cheaper and more convenient than express for small packages. At mail prices shown in this catalog we prepay postage up to and including the fourth parcel post zone. To points beyond the additional postage will be collected on delivery. Your postmaster can tell you what zone you are in from Rochester.

SHIPPING SEASONS—In the spring, for this locality, usually from about March 1st to May 15th. To Southern points we commence shipping in January. In the fall from about October 15th until the ground freezes. We advise spring planting for Berry plants, Peach trees and Evergreens.

SPECIAL DISCOUNT ON EARLY ORDERS

On all orders accompanied by remittance received on or before March 1st., 1928, you may deduct 10%. Early orders assure you of receiving exactly what you want, and help us to plan on shipping before the spring rush.

ROSES

The Well Loved "Queen of Flowers"

THE Hybrid Teas, commonly called the "Everblooming" or "Monthly" roses, commence to bloom in June and continue until Fall. This is now the most popular class of roses and great advances have been made in the development and improvement of varieties the past few years.

By mail 5 cents per plant extra, postpaid to the 4th zone.

"THE WOODLAWN HALF-DOZEN"

Hybrid Tea Roses

Souvenir de Claudius Pernet	Betty
General Janssen	Los Angeles
Sensation	Mme. Butterfly

By Express **\$4.50**

By mail postpaid to 4th zone **\$4.75**

Illustrated in color on back cover.

Described on this page

SOUVENIR DE CLAUDIUS PERNET

LADY ASHTOWN—A deep carmine shading to yellow at base of petals. Flowers large with beautiful recurved petals. 90 cents each

LADY PIRRIE—Reddish coppery salmon outside. Inside lighter apricot yellow, flushed fawn and copper. Long pointed buds. 85 cents each

SOUVENIR DE CLAUDIUS PERNET—One of the finest yellow roses of recent introduction. Pure sunflower yellow, deeper in center. \$1.00 each

BETTY—Lovely coppery rose, overspread with golden yellow. Deliciously fragrant; with long buds. A continuous bloomer. Especially good in the Autumn. 85 cents each

GENERAL JANSSEN—Glowing deep carmine with long pointed buds. One of the best of its color. Vigorous and upright in growth, continuous bloomer. 85 cents each

SENSATION—A beautiful velvety scarlet crimson shaded with deep maroon. Very large double blooms. Profuse bloomer, dark foliage. 85 cents each

LOS ANGELES—One of the most notable American garden roses. Its color is a luminous flame pink, toned coral, shaded translucent gold at base of petals. Upright grower, bearing perfect, fragrant flowers on strong stems. 85 cents each

GRUSS AN TEPLITZ

GRUSS AN TEPLITZ—Scarlet, shading to velvety crimson, very fragrant, a full grower and most profuse bearer. One of the choicest and most satisfactory of all Roses. 75 cents each

MME. BUTTERFLY—A harmony of pink, apricot and gold. Resembles Ophelia but has more intensive coloring. "A glorified Ophelia." 85 cents each

MARGARET DICKSON HAMILL—A buff-orange of globular shape. Stems long, strong; vigorous branching habit. Foliage dark green, leathery. \$1.00 each

MISS LOLITA ARMOUR—A beautiful American rose which won the Bagatelle Gold Medal in 1921, the highest rose honor. Very large blooms, chrome-yellow at base shading to burnt orange and copper. Reflex of petals yellow at base shading to bright salmon. \$1.00 each

MME. LEON PAIN—Silvery salmon with orange yellow center. Very large double blooms on long strong stems. Continuous bloomer. 85 cents each

MRS. ARTHUR ROBERT WADDELL—Graceful loose petaled orange salmon. Long pointed hall opened, deep apricot buds are unusually attractive. Soft bronzy foliage. Vigorous blooms \$1.00 each

MRS. HERBERT STEVENS—Medium size snowy white shading to fawn and peach toward center. Has few thorns. Very profuse bloomer. 85 cents each

OLD GOLD—Orange red with copper and apricot shadings. Glossy bronzy leathery foliage. \$1.00 each

RUGOSA ROSES

RUGOSA ROSE HYBRIDS—Cannot be excelled for massing or hedge planting and are attractive in the garden. The plants are highly ornamental and the hardiest of all roses. Foliage is dark green, compact, leathery and disease-resistant.

RUGOSA ROSE, F. J. GROOTENDORST

F. J. GROOTENDORST—This new everblooming variety is becoming more and more popular. The small, fairly double, red flowers grow in clusters. Edge of each petal is serrated and somewhat resembles a carnation. They bloom in early summer and continue until the heavy frosts come. The plant is bushy and a strong grower. A distinctive and highly desirable variety. 85c each; 10 for \$7.50

SIR THOMAS LIPTON—Double, snow-white flowers growing in clusters of medium size. Plant grows 4 feet high. Blooms throughout the summer. 65c each; 10 for \$5.50

LADY URSULA

LADY URSULA—Shell pink. Petals gracefully reflexed. Vigorous upright habit. Does particularly well in dry locations. 85 cents each

SNOW QUEEN (FRAU KARL DRUSCHKI)—White American Beauty—Vigorous and hardy. The most perfect white rose, blooms continuously. A great beauty. 75 cents each

By mail 5c extra per plant
postpaid to 4th parcel
post zone.

The roses arrived in fine condition, in fact I think its the finest stock of roses I ever set out.
I am certainly delighted with every plant.

Mrs. Hawk

East Palestine, Ohio

PINK KILLARNEY

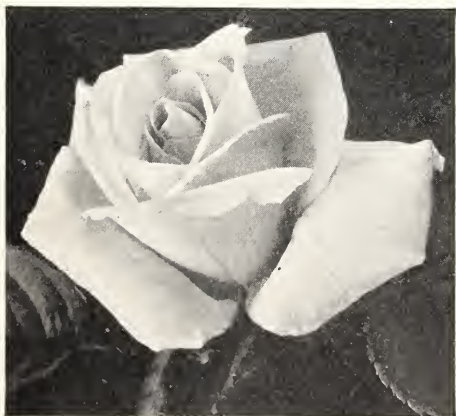

HYBRID TEA ROSES

Continued

PINK KILLARNEY—Color especially beautiful, as exquisite shade of deep sea-shell pink. Buds and flowers enormous size, petals being frequently two and one-half inches deep. Blooms profusely throughout the season. 75 cents each

WHITE KILLARNEY—A duplicate of the charming pink Killarney, with flowers white as snow. 75 cents each

EUGENE BOULLET—Splendid deep crimson, full and globular; very free bloomer; vigorous branching plants; bronze green foliage. Excellent for bedding. 85 cents each

WILLIAM F. DREER

WILLIAM F. DREER—A new American rose of marvelous beauty. Silvery shell pink, rich golden yellow at base suffusing the entire flower. Has few thorns. \$1.00 each

RED RADIANCE

RED RADIANCE—Extra hardy, vigorous and prolific; fine grower and free bloomer. Color, rich velvety red. One of the best and prettiest all-around garden red roses. 85 cents each

JULIET—Outside old gold, inside a rich rosy red, changing to deep rose as the flowers expand. Very fragrant. 75 cents each

By mail 5c extra per plant postpaid to 4th zone.

WOOD'S FAVORITE Hardy Rose Collection

5 two-year field-grown bushes for
\$2.50 by express

By mail postpaid to 4th zone **\$2.75**

Clio Snow Queen

Paul Neyron Gruss an Teplitz

General Jacqueminot

BABY RAMBLER

BABY RAMBLER—Bush, not climbing. Flowers are large, well formed, crimson in color, and borne in clusters of 20 to 40 flowers at one time. Blooms profusely from June until frost. Very desirable for summer bedding and, when planted as a hedge, is an object of beauty. 65 cents each

My last order arrived in fine shape. The plants were very nice. The plants I had from you in the spring have all made nice growth and all blossomed. Am very much satisfied with them all.

October 15, 1927.

Mrs. Laura U. Sawyer,
Boonville, N. Y.

HYBRID PERPETUAL ROSES

THE Hybrid Perpetuals or "June Roses" are among the hardiest and most vigorous of the double bush roses. In general the blooms are very double, large and full. Always satisfactory in any part of the country.

NEW LOW PRICES

Any variety on this page, strong field grown 2 year plants 60c each; 10 for \$5.50.

By mail 5 cents per plant extra, postpaid to the 4th zone.

CLIO—Flowers large, in clusters, of fine globular form, flesh-color shaded in the center with rosy pink; growth vigorous; handsome foliage. One of the best roses.

PRINCE CAMILLE DE ROHAN—Deep velvety crimson, nearest approach to a black rose; large, moderately full. Splendid rose.

PAUL NEYRON—This magnificent Rose is by far the largest in cultivation; very double; beautiful deep rose color and delightfully fragrant; blossoms abundantly through entire season.

MRS. JOHN LAING—Soft, delicate pink, with a satiny sheen; fragrant. Free bloomer. One of the best light pink Roses.

MARSHALL P. WILDER—Cherry-carmine, shaded with maroon; fragrant. Vigorous and hardy. Blooms profusely long after others are out of flower.

MARGARET DICKSON—A beautiful white Rose with a pale flesh pink center, petals very large; shell shaped and of great substance; fragrant; foliage very large, dark green.

GENERAL JACQUEMINOT

GENERAL JACQUEMINOT—Brilliant crimson, one of the most handsome and showy roses of this color; beautiful in the bud. Popularly known as "Jack Rose."

ULRICH BRUNNER—A Rose of beautiful form and finish, very striking for its color of brilliant cherry-crimson. Free bloomer.

ONE OF OUR FIELDS OF THRIFTY TWO YEAR OLD ROSES—THE KIND WE SEND YOU

This picture was taken Sept. 15th. Bushes still blooming profusely.

WOOD'S CHOICE CLIMBING ROSES

Strong Two-Year Old Plants, Field Grown

C LIMBING Roses make ideal coverings for porches, trellises, pergolas, walls, etc. They grow easily, bloom profusely through a long season and have handsome foliage. They are perfectly hardy anywhere. Price by mail 5 cents per plant extra, postpaid to 4th zone.

DOROTHY PERKINS CLIMBING ROSE COVERING AN ARBOR

DOROTHY PERKINS—Clear shell-pink with flowers borne in clusters; full and double with crinkled petals. Foliage stays until winter. One of the finest Climbers. 50c each; 10 for \$4.80

THOUSAND BEAUTIES—Superb; large double clusters, varying colors, pink, white and rose; blooms freely from June until August; strong grower; magnificent glossy foliage. 50c each; 10 for \$4.80

DR. VAN FLEET—A newer type of Climber, combining absolute hardiness with flowers as large as Tea Roses. Shows a mass of beautiful clusters of rich, flesh-pink buds, and when opened, large delicate flowers, with stems 12 to 18 inches long. 50c each; 10 for \$4.80

CLIMBING AMERICAN BEAUTY—This new, wonderful, beautiful rose produces twenty times as many blooms as the old American Beauty. Fragrant, rich carmine flowers, 3 to 4 inches in diameter, are produced on separate stems. Hardy and vigorous grower with foliage remaining beautiful until snowfall. 75c each; 10 for \$7.00

EXCELSA OR RED DOROTHY PERKINS—The most handsome of all Climbers. Double scarlet flowers in large trusses. Vigorous, hardy and disease-resistant. 50c each; 10 for \$4.80

PAUL'S SCARLET CLIMBER—New Dazzling Climbing Rose. Color is vivid scarlet of lasting brilliancy, outclassing every other climbing variety in the scarlet shades. Does not fade but remains bright until flowers fall. Blossoms are of medium size, semi-double and perfect in bud form. Hardy and of good climbing habit. Has received many awards. Very popular. *See illustration on front cover.* 75c each; 10 for \$7.00

RAMBLERS

50c each; 10 for \$4.80

CRIMSON RAMBLER—Vigorous, rapid growing, with large clusters of crimson flowers. Make attractive hedge.

WHITE RAMBLER—Similar to crimson; blossoms pure white.

YELLOW RAMBLER—Light canary shade; clusters smaller, individual flowers larger than Crimson Rambler.

ORNAMENTAL TREES

TREES are important in giving grounds that well-kept appearance which is so desirable.

As is the case with flowering shrubs, vines and roses, they should be planted according to a well conceived plan. Ornamental trees may be successfully used to shut off unsightly views and yet should be placed so they will not shut off any pleasing outlook. Trees furnish shade and protection and add materially to the value of property. The original outlay of money is comparatively small and the ever-increasing pleasure and enhanced property value is great.

A—Denotes trees which attain 50-70 ft. in height.

B—Denotes trees which attain 20-40 ft. in height.

C—Denotes trees which attain 8-15 ft. in height.

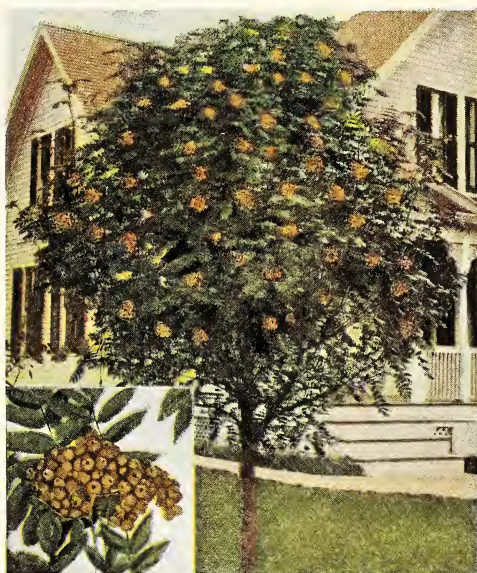

PAUL'S DOUBLE FLOWERING THORN

PAUL'S DOUBLE-FLOWERING THORN (C)

—An excellent lawn specimen tree with graceful spreading, irregular branches. Blooms in May and June. Flowers are double, of a bright carmine color and are borne in great profusion. Grows in any soil.

4-5 ft., \$3.00 each

I was delighted with everything you sent me. I never received such lovely large plants for so small a price before from any nursery. Thank you very much.
Stamford, Conn. Mrs. Elroy Smith.
April 1, 1927.

AMERICAN MOUNTAIN ASH

MOUNTAIN ASH, AMERICAN (B)—Erect growing tree with graceful spreading branches; bark light gray. White flowers in early spring followed by clusters of orange red berries remaining throughout the winter. A great favorite.

8-10 ft., \$2.50

MULBERRY, DOWNING (B)—Very desirable, small tree bearing large black berries of excellent quality. Useful as well as ornamental. Especially valuable for planting near a cherry orchard as birds will eat this fruit instead of the cherries.

5-6 ft., \$1.00 each

Tea's Weeping Mulberry on page 9

ORIENTAL PLANE (A)—Well known vigorous growing tree especially useful in cities where there is much smoke. Extensively used for street and park planting.

8-10 ft., \$2.50 each

**Write for Special Wholesale
Prices on Ornamental Trees
in Large Quantities**

CATALPA BUNGEI—UMBRELLA TREE

CATALPA, BUNGEI (UMBRELLA TREE) (C)
—Grafted on stems 5 to 6 ft. high, it makes an umbrella-shaped top without pruning; perfectly hardy. Leaves large, glossy, heart-shaped, deep green. One of the most unique trees; desirable for lawn, park and cemetery planting or for each side of a driveway.

Two-year heads, extra large, \$2.00 each

PURPLE LEAVED PLUM

PLUM, PURPLE - LEAVED (PRUNUS PISSARDI) (B)—Finest purple-leaved small tree. Young branches are very dark purple; leaves when young are lustrous crimson changing to dark purple, and retain this beautiful tint until they drop.

4 to 5 ft., \$1.00

CATALPA SPECIOSA

CATALPA SPECIOSA (B)—Handsome, oriental appearing tree with heart-shaped, downy leaves; fragrant flowers in June, very hardy.

8-10 ft., \$1.50 each

JAPAN WEEPING ROSE FLOWERED CHERRY

JAPAN WEEPING ROSE-FLOWERED CHERRY (B)—Delicate pink flowers bloom in May and resemble miniature roses. The mass of bloom conceals the branches of this attractive and beautiful tree.

5 to 6 ft. stems, \$5.00 each

A—Denotes trees that attain height of 50-70 ft.; B—20-40 ft.; C—8-15 ft.

BECHTEL'S DOUBLE-FLOWERING CRAB

BECHTEL'S DOUBLE-FLOWERING CRAB (C)—One of the most beautiful varieties of flowering crabs. Medium size, with large, double, fragrant flowers of a delicate pink in early Spring. From a distance they have the appearance of roses.

2 to 3 ft., \$1.00 each; 3 to 4 ft., \$1.50 each

AMERICAN LINDEN OR BASSWOOD

LINDEN, AMERICAN (B)—A tree of unusual stately beauty. Foliage luxuriant and curious cream colored flowers have a delightful fragrance. Blooms in July. Growth rapid and upright.

8 to 10 ft., \$2.50 each; \$23.00 per 10

TEA'S WEeping MULBERRY

MULBERRY, TEA'S WEeping (C)—One of the finest, most graceful and satisfactory of weeping trees. Umbrella shaped head, with slender, willowy branches drooping to the ground. It has beautiful, glossy foliage, handsomely cut or divided into lobes. Perfectly hardy.

Two year heads, extra large, \$3.00 each

WILLOW BABYLONICA

WILLOW, BABYLONICA (A)—Well known, weeping variety; forms a large, round-headed graceful tree. It does not require much attention and succeeds well in rather wet soil. Very desirable.

6 to 8 ft., \$1.75 each

A—Denotes trees that attain height of 50-70 ft.; B—20-40 ft.; C—8-15 ft.

SILVER-LEAVED MAPLE

MAPLE, SILVER-LEAVED OR SOFT MAPLE (A)—Beautiful ornamental tree, in great demand for street, lawn and park planting. Easy to transplant; fast grower, thrives equally well in any location.

8 to 10 ft., \$1.50 each; \$12.50 per 10
10 to 12 ft., \$2.00 each; \$18.00 per 10

MAPLE, NORWAY (A)—The compact, vigorous nature of this tree renders it desirable for the street or lawn. The growth is fairly fast, the head massive and rounded, with broad, rich green foliage. See picture below.

8 to 10 ft., \$3.00 each
10 to 12 ft., \$3.50 each
10 to 12 ft., 2-3 in. caliper, \$5.00 each
10 to 12 ft., 3-4 in. caliper, \$8.00 each

WIER'S CUT-LEAVED MAPLE

MAPLE, WIER'S CUT-LEAVED (A)—One of the most remarkable and beautiful trees, with cut or dissected foliage. Growth rapid, shoots slender and drooping, giving it habit almost as graceful as cut-leaved Birch.

7 to 8 ft., \$2.00 each; \$17.50 per 10

MAPLE, SUGAR OR ROCK (A)—Very popular American tree valuable for its production of sugar and wood. Very stately in form, rapid grower, and has fine foliage. Valuable ornamental variety. Adapts itself to any soil, but is a good tree to plant in a stiff, clay soil.

8 to 10 ft., \$2.50 each; 10 to 12 ft., \$3.00 each

AVENUE OF NORWAY MAPLES—WIDELY USED FOR STREET AND PARK PLANTING

AMERICAN ELM, FINEST STREET
AND SHADE TREE

ELM, AMERICAN (A)—The magnificent, stately elm with its towering branches spreading out at the top like a huge umbrella is one of the best known and most beautiful trees for ornamental planting.

8-10 ft., \$2.00 each; \$17.50 per 10
10-12 ft., \$2.50 each; \$22.50 per 10

RED-LEAVED MAPLE

MAPLE, SCHWEDLERII (RED-LEAVED) (B)—A strikingly attractive tree especially in the spring when the leaves are a gleaming red. Purplish green in mid-summer; golden bronze in Autumn.

8-10 ft., \$5.00 each

A—Denotes trees that attain height of 50-70 ft.; B—20-40 ft.; C—8-15 ft.

PICTURE AT LEFT OF SPECIAL INTEREST

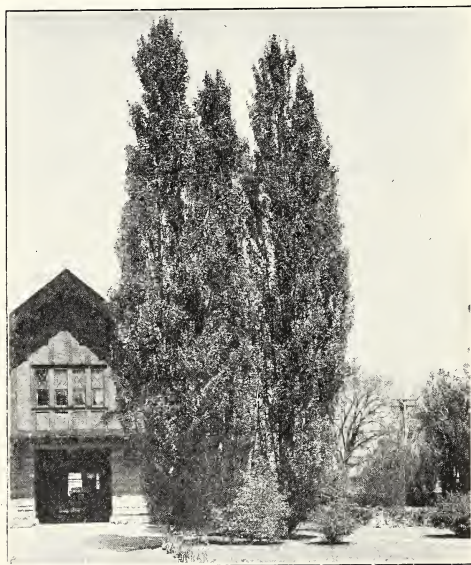

The American Elm trees shown in the picture at the left were planted out by Mr. Wood's father about the time Woodlawn Nurseries started. The trees line Culver Road near Garson Ave., where our office is located. The picture was taken before Culver Road was paved,—in fact before it was in the city. These beautiful Elms still remain as stately living monuments of the past.

Your shipment of trees arrived in due time and in excellent order. Am well pleased with the trees and also with the handling of my small order.

St. Thomas, Penna.

John R. Walter.

April 18, 1927.

LOMBARDY POPLAR

POPLAR, LOMBARDY (A)—Well known for its erect, rapid growth and commanding form. Desirable on large grounds, or along roads. Planted as a screen or for a windbreak.

8-10 ft., \$1.25 each; \$10.00 per 10
10-12 ft., \$1.50 each; \$12.50 per 10

POPLAR, CAROLINA (A)—Rapid grower. Large leaves, glossy, deep green. Valuable where shade is desired quickly. Useful as a screen or as windbreak.

8-10 ft., \$1.00 each; \$ 8.50 per 10
10-12 ft., \$1.25 each; \$10.00 per 10

WOOD'S QUALITY NUT TREES

New York State Grown Varieties

ENGLISH WALNUT

ENGLISH WALNUT—An exceedingly handsome tree for the lawn. It produces large crops of thin shelled, delicious Nuts which are always in demand at good prices. The English Walnut can be grown in the Eastern and Northern States, as well as in California and the South. There are several large orchards of English Walnuts in the vicinity of Rochester, N. Y., which produce good crops every year. We have three English Walnut trees on one of our farms, which are over 40 years old.

1½ to 2 ft., \$.75 each; 10 for \$6.50
2 to 3 ft., \$1.00 each; 10 for 8.50
3 to 4 ft., \$1.50 each; 10 for 12.50

BUTTERNUT

BUTTERNUT—Produces large, handsome elongated Nuts with rich, sweet oily kernel; very nutritious. Cultivation increases the size of the Nuts. The tree grows rapidly and yields large crops in a few years.

4 to 5 ft., \$1.00 each; 10 for \$9.00

JAPAN WALNUTS PICKED FROM A
SIX YEAR OLD TREE

JAPAN WALNUT—A choice improved variety, grows with great vigor, forming a handsome head without pruning; has withstood a temperature of 20 degrees below zero without injury. The shell is a little thicker than that of the English Walnut, which it resembles in a general way; kernels are meaty delicate and can be removed entirely. Tree begins to bear 2 or 3 years after planting.

2 to 3 ft., \$.75 each; 10 for \$ 6.50
3 to 4 ft., \$1.25 each; 10 for \$10.00

BLACK WALNUT

BLACK WALNUT—Bears a heavy crop of large round Nuts of excellent quality. They are much relished and bring a good price on the market. The tree is a rapid grower, attaining a large size and majestic form; has beautiful foliage. Very valuable for its timber, which enters largely into the manufacture of fine furniture and cabinet ware.

5 to 6 ft., \$1.00 each; 10 for \$9.00

My order arrived yesterday in excellent condition.
Thank you.
Avon, New York

Frank E. Meekin

PLANTING SUGGESTIONS

Especially for the Inexperienced

WITH shrubs, evergreens and trees around it, a house becomes cozy and warm—a real “home” and incidentally ornamental planting adds hundreds of dollars to its value. You will find it a fascinating pastime to select from the hundreds of desirable varieties described and illustrated through this book those kinds best suited for your particular location and your special needs. In order to make it easy for you to make suitable selections, we have grouped together here a few kinds especially useful for various purposes and have indicated the pages in this book where you will find them fully described and many illustrated. These lists are not intended as complete, but merely as helpful suggestions especially for inexperienced gardeners.

In planning your planting, place taller growing varieties to the rear and lower growing kinds in front. Give tall growing kinds more room and plant farther apart.

By noting the time of bloom and prevailing colors you can select assortments that will make a harmonious display from early until late.

If in doubt just what to use and where, make a rough pencil layout giving dimensions, location of buildings, walks, driveways, and directions and send it to our Landscape Department and we will make a suggestive planting plan for you.

In the tables below fl. stands for flowers; lvs. means leaves or foliage; var. col. means various colors; var. lvs. means variegated leaves.

FOR FOUNDATION AND BORDER PLANTING

TALL GROWING (Set about 4 ft. apart)	Time of Bloom	Flowers, Leaves or Fruit	Page
Altheas	Aug.-Sep.	Var. col. fl.	22

EVERGREEN PLANTING ON DRIVE

EVERGREENS

We Have the Finest and Largest Collection of Choice Evergreens in the Country

THERE is nothing that can quite take the place of Evergreens. In the summer their stately dignified grandeur adds serenity to the riot of colors in other vegetation, and in snowy winter their cheerful freshness gives us the comforting promise, in the bleak landscape, that Spring will come again. They can be used in foundation or corner planting—as single specimens on the lawn or along the driveway—as hedges, windbreaks, and in many other delightful ways.

We have selected some of the choicest varieties and offer them here. They are the finest, strongest specimens you will find anywhere.

ALL SPECIMEN PLANTS

Transplanted Several Times

IRISH JUNIPER — A distinct beautiful variety of erect dense conical outline, a perfect pillar of green; very desirable.

3 to 4 ft., \$4.00 each

JUNIPER STRICTA—One of the leading dwarf varieties. Very dense, narrow and conical, having a fine, silvery glaucous color. Thrives in all parts of the country. See illustration at right 2 ft., \$4.00 each

JUNIPER SWEDISH (SUECICA) —Dwarf, compact habit; with bluish-green foliage, a beautiful pyramidal tree. Holds its color in winter.

18 to 24 in., \$3.00 each

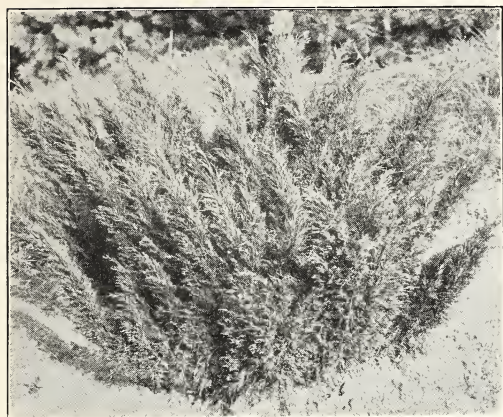

10% Discount on all cash orders received on or before March 1st, 1928

IRISH JUNIPER

JUNIPER STRICTA

SAVIN JUNIPER

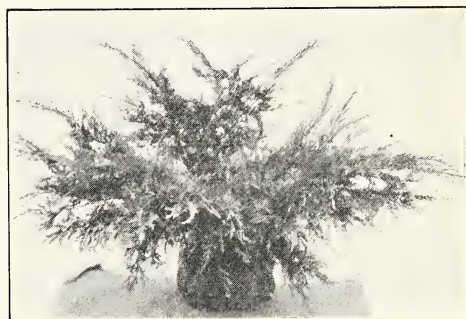

SAVIN JUNIPER—A low spreading tree, with handsome, dark green foliage. Very hardy and suitable for lawn and around porches. Can be pruned to any desired shape. 24 to 30 in., \$4.00 each

MUGHO—DWARF MOUNTAIN PINE

MUGHO—Dwarf Mountain pine. Low, dense and spreading in growth, usually broader than its height. One of the most attractive and valuable of our dwarf Evergreens. 15 to 18 in., \$4.00 each
18 to 24 in., \$6.00 each

TOM THUMB ARBOR VITAE—Very dwarf compact Evergreen with feathery foliage. Very desirable for use in front of taller growing kinds. 18 to 24 in., \$3.50 each

JUNIPER PFITZERIANA

JUNIPER PFITZERIANA—One of the most beautiful, graceful and desirable of the spreading Evergreens. Adapts itself to any location. Perfectly hardy, retaining its fresh silvery green color through the most severe winters. Its light feathery appearance and spreading habit make it ideal for borders.

2 to 3 ft., \$5.00 each
3 to 4 ft., \$7.00 each

GLOBE ARBOR VITAE

GLOBE ARBOR VITAE—Forms a natural Evergreen Globe or ball without any trimming; very pretty and hardy.

15 to 18 in., \$2.50 each
18 to 24 in., \$3.00 each
2 to 3 ft., \$5.00 each

SIBERIAN GLOBE ARBOR VITAE—The hardiest of the globe-shaped Evergreens. Foliage is somewhat coarser than Compacta but forms a dense ball. 18 to 24 in., \$3.00 each

NORWAY SPRUCE

THIS is the way we "ball and burlap" our Evergreens with earth around the roots so they will reach you in good condition.

NORWAY SPRUCE—Pyramidal in form, of rapid growth, hardy. Makes a beautiful ornament for the lawn when planted single and when set out as a hedge or windbreak cannot be beaten. Norway Spruce will grow as high as 25 feet.

15 to 18 in., \$1.25 each
2 to 3 ft., \$2.50 each

COLORADO BLUE SPRUCE—Wonderful ornamental tree, silvery blue luster, perfection in form and symmetry. Its hardy characteristics make it adaptable to nearly all climates.

15 to 18 in., \$4.00 each

THUYA AMERICAN ARBOR VITAE—Erect pyramidal habit; soft, dark green foliage. Dense from ground up. Rapid grower; hardy. Excellent specimen for planting in tubs.

2 to 3 ft., \$3.00 each
3 to 4 ft., \$3.50 each
4 to 5 ft., \$6.00 each

SCOTCH PINE—Somewhat resembles in rugged artistic shape the Austrian Pine pictured on opposite page but has blue green foliage. Needles are short and stiff. Very attractive used alone or in Evergreen groups. Will grow in almost all soils and under very difficult conditions.

2 to 3 ft., \$3.00 each

PYRAMIDAL ARBOR VITAE—One of the most beautiful varieties, very erect and regular in form. Foliage a deep green, well retained in winter; perfectly hardy, easily transplanted and sure to give satisfaction. See illustration on opposite page.

3 ft., \$4.00 each
3 to 4 ft., \$6.00 each
4 to 5 ft., \$8.00 each
5 to 6 ft., extra heavy, \$12.00 each

HOW TO PLANT EVERGREENS

Before planting evergreens set them in a tub of water for a half hour so that the ball is covered. Plant without removing the burlap leaving the ball of earth around the roots, but cutting the strings. Wet the ground after planting till it is like mud and then add two pails of water each night for two weeks.

Success with evergreens depends so much upon the care of the planter in protecting roots from air and sun, that we cannot guarantee them further than that delivery be in first-class condition.

RETINOSPORA PISSIFERA (CYPRESS)

RETINOSPORA PISSIFERA (CYPRESS)—The hardiest and most satisfactory of Retinosporas for this part of the country. Feathery, thread-like foliage of dark green.

2 to 3 ft., \$3.00 each; 3 to 4 ft., \$4.00 each

RETINOSPORA PISSIFERA, GOLDEN—Similar to the green variety in form, but with golden yellow foliage.

2 to 3 ft., \$4.00 each

PYRAMIDAL ARBOR VITAE

See opposite page

AUSTRIAN PINE

AUSTRIAN PINE—With their rugged aspect and dark green needle-foliage, stiff and resistant, Austrian Pines make a very artistic aspect in any landscape scheme. Individual trees are interesting in shape and habit. 2 to 3 ft., \$3.00 each

HEDGE PLANTS

NOT many years ago the only hedges to be seen were those used for defense or defining boundaries, but today they are planted extensively for ornament. Many beautiful effects are now possible, and it is needless to say that these fences of living green beautify our homes and are rapidly supplanting the old-fashioned picket and iron fences. The most widely planted hedges are the California Privet and Barberry Thunbergii, shown below. Other shrubs that make good hedges include Spirea Van Houttei, shown on page 26, Snowberries, page 23, Bush Honeysuckle, page 23, Hydrangeas, page 24.

HEDGE OF BARBERRY THUNBERGII (JAPANESE BARBERRY)

BARBERRY THUNBERGII—Dwarf growing; foliage rich, bright green; brilliant red color in Autumn. Red berries also appear at that time. Perfectly hardy, easily transplanted and free from insects. Very ornamental and as attractive in winter as in summer.

WOOD'S HARDY VINES

VINES, particularly these hardy ornamental varieties, require practically no care or attention. They serve not only as a charming beautiful decoration but are also used to provide much needed shade. Vines may often change the appearance of an unbroken wall or liven up and beautify an otherwise monotonous or unsightly spot. Our vines are all two years old, well-rooted, strong quality stock.

Woodlawn Quality Vines are the best and strongest you can buy. Price by mail 5 cents per plant extra, postpaid to the 4th parcel post zone.

DUTCHMAN'S PIPE—BIRTHWORT

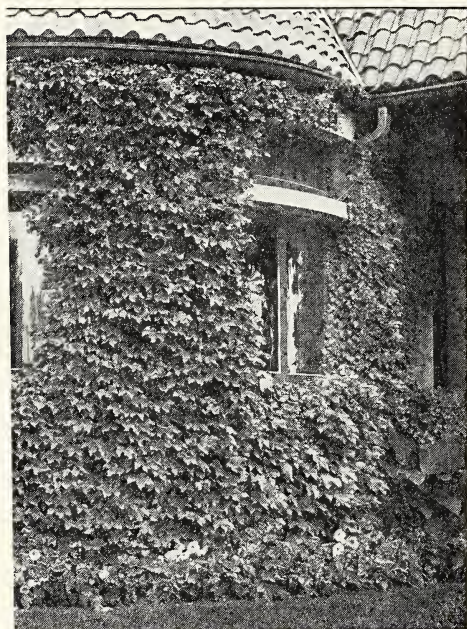

DUTCHMAN'S PIPE OR BIRTHWORT

—A very striking unique vine, ideal where dense shade is wanted. The large, broad, deep green leaves are closely laid and very handsome. Has peculiar brownish flowers, resembling a miniature pipe. Perfectly hardy; very easily grown. \$1.00 each

HONEYSUCKLE, HALL'S JAPAN—A

strong, vigorous, almost evergreen sort, with pure white flowers, changing to yellow. Very fragrant. Covered with flowers from July to December; holds its leaves until January. Best bloomer of all vines. See illustration at right.

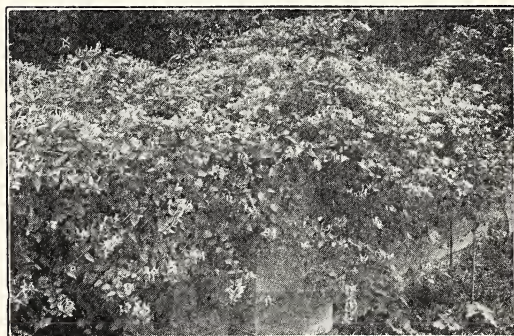

50c each; 10 for \$4.50

BOSTON IVY—AMPELOPSIS VEITCHII

AMPELOPSIS VEITCHII (BOSTON IVY)—Desirable vine for covering walls, verandas, and tree trunks. Leaves beautiful in summer, turning a rich crimson in Autumn. Only vine that will cling to brick or cement wall. Fast grower.

75c each; 10 for \$6.00

HALL'S JAPAN HONEYSUCKLE

Description below

HARDY VINES

Continued from page 19

CLEMATIS, MME. ED. ANDRE—Flowers medium size; dark red; blooms profusely; a beautiful vine of striking color. Illustrated above (1).

80c each

CLEMATIS, PANICULATA—Single, white. Of extremely rapid growth, with shining green foliage, and a profusion of flowers which are small but borne in large clusters so that the vine is one mass of blooms; very popular; has delightful fragrance. Illustrated above (2).

65c each

WISTARIA, CHINESE PURPLE—A rapid grower, unsurpassed for beauty and picturesqueness. It is hardy and lives to a great age, doing as well in cities amid unfavorable conditions as in the country. Has long, pendulous clusters of pale flowers in May and June. Illustrated above (3).

75c each; 10 for \$6.50

CLEMATIS, JACKMANI—Large, intense violet purple flowers and remarkable for its velvety richness; free in growth and abundant and successive bloomer. Probably the best known and most popular of the large-flowered kinds. Pictured in color above (4).

80c each

CLEMATIS, HENRYII—The finest large-flowered white Clematis. The fine large flowers are about the shape of the red Mme. Ed. Andre pictured above (1) but usually have six to eight petals; grows rapidly; blooms freely during summer and autumn.

80c each

VIRGINIA CREEPER, AMERICAN IVY—A fine rich green in summer, changing to crimson in autumn. Affords shade quickly and is very desirable for covering walls, verandas or trunks of trees.

50c each; 10 for \$4.00

BITTERSWEET—Large leaves, yellow flowers, clusters of orange-capsuled fruit in the autumn; fast grower. Makes charming winter house decorations.

75c each

The order of plants arrived safely and in good condition and is O.K. We are very much satisfied.

October 24, 1927.
 Lowell, Mass.

Miss Lena Camire.

SHRUBS

WTHOUT shrubbery, a house, no matter how expensively built, seems stark and bare like a factory building. When tastefully planted with shrubs, it becomes cozy, warm and inviting as if it grew out of the soil on which it stands. The humblest cottage is glorified and the largest mansion is made homelike.

In fact, nowadays, proper planting and landscaping around the exterior is considered as important as suitable furnishings and decorations on the interior and incidentally adds hundreds of dollars to the value of the property.

By careful selection of varieties, you can have something in bloom throughout the growing season. The classified list on page 13 will help you. Woodlawn shrubs are all strong, well-rooted stock transplanted from open ground.

D—Denotes shrubs which attain height of 9 to 12 ft.; E—5 to 8 ft.; F—2 to 4 ft.

Price by mail postpaid to the 4th parcel post zone, 5 cents per plant extra.

DOUBLE FLOWERING ALMOND

FLOWERING ALMOND (E)—Flowering shrub, vigorous and beautiful; covered in May with double pink blossoms, like small Roses, before the leaves appear. 2½ to 3 ft., \$1.00 each

ARALIA PENTAPHYLLA (E)—Pretty Japanese shrub. Branches long and slender, foliage bright green, flowers white. Grows rapidly. 2 to 3 ft., 50c each

THREE HIGHLAND PARK LILACS
LUDWIG SPAETH, MISS STEPMAN, MICHAEL BUCHNER

LILACS

IN recent years great improvements have been made in varieties of Lilacs. Many new delightful colors are now available for you. We have selected some of the finest from the world famous Highland Park Collection.

LUDWIG SPAETH (E)—Darkest of the blues, a deep rich reddish purple shade—borne in long panicles; single. 18 to 24 in., \$1.25 each

MISS STEPMAN (E)—Splendid double white of vigorous habit. 2 to 3 ft., \$1.25 each

MICHAEL BUCHNER (E)—Delightfully beautiful trusses of delicate pale lilac; very double. Dwarf and stocky. 2 to 3 ft., \$1.25 each

SPECIAL

THE THREE HIGHLAND PARK LILACS
illustrated and described above
\$3.00 by express

By mail postpaid to 4th zone **\$3.25**

PURPLE LILAC (E)—The well known, old time favorite; bluish purple flowers. 3 to 4 ft., 65c each; 10 for \$6.00

WHITE LILAC (E)—Fragrant and free flowering. Always popular. 3 ft., 75c each; 10 for \$6.50

Lilacs continued on next page.

Highland Park Varieties

FRENCH BUDDED LILACS

PRESIDENT GREVY (E)—Large double flowers of bright blue; tube and scapes rosy mauve.

2 to 3 ft., \$1.00 each

MARIE LA GRAYE (E)—Tall growing, vigorous plants bearing large clusters of single white flowers. Fragrant.

2 to 3 ft., \$1.00 each

PRESIDENT VIGER (E)—Lovely bluish lilac; extra fine; large double.

2 to 3 ft., \$1.00 each

LAMARCK (E)—Large very double flowers of rosy lilac color in extra large panicles.

2 to 3 ft., \$1.00 each

CONGO (E)—Beautiful rich wine red. Very large single flowers in huge clusters.

2 to 3 ft., \$1.25 each

Do not overlook the three choice Highland Park Varieties on page 21.

CORNUS ELEGANTISSIMA

CORNUS ELEGANTISSIMA (Variegated Leaf) (E)—One of the finest shrubs, with beautifully variegated foliage.

2 to 3 ft., 65c each; 10 for \$5.50

CORNUS SIBIRICA (E)—(Red-twigged Dogwood). With small clusters of white flowers; its berries and its dark red bark make it a very attractive shrub.

4 ft., 50c each; 10 for \$4.50

ALTHEA—ROSE OF SHARON

ALTHEA, OR ROSE OF SHARON (D)—The Altheas are fine, free-growing, flowering shrubs and are easy to cultivate. Very desirable on account of blooming in August and September, when scarcely any other tree or shrub is in blossom. We have the following varieties:

LADY STANLEY (Double Pink)

ARDENS (Double Purple)

BOULE DE FEU (Double Red)

JEANNE D'ARC (Double White)

2 to 3 ft., 50c each; 5 for \$2.00

TREE ALTHEA (D)—Same as bush; but grown in tree form, with single stem. Colors: Pink, Red, Purple and White.

3 to 4 ft., \$1.00 each

GOLDEN ELDER

ELDER, GOLDEN LEAVED (E)—A handsome variety, with golden-yellow foliage. White flowers. The berries are used for pies, jam and wine.

3 ft., 50c each, 10 for \$4.50

HIGH BUSH CRANBERRY (E)—Very ornamental. Its red berries resemble cranberries, which hang on until destroyed by frost.

2 to 3 ft., 50c each; 10 for \$4.50

D—Denotes shrubs which attain height of 9 to 12 ft.; E—5 to 8 ft.; F—2 to 4 ft.

HONEYSUCKLE, UPRIGHT, WHITE

BUSH HONEYSUCKLES

HONEYSUCKLE, UPRIGHT, WHITE (E)—A well known shrub of erect habit. Valuable for its handsome flowers and showy fruit. Delightfully fragrant. One spray will fill a room with its delicate perfume. 3 to 4 ft., 50c each; 10 for \$4.50

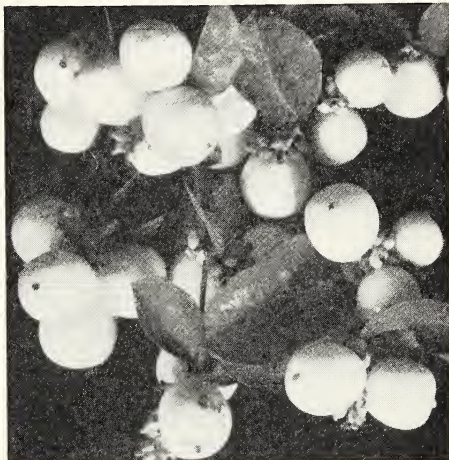

HONEYSUCKLE, UPRIGHT ROSEA (E)—A beautiful shrub; vigorous; producing large, bright red flowers, striped with white. 3 to 4 ft., 50c each; 10 for \$4.50

HONEYSUCKLE, UPRIGHT PINK (E)—Has flowers which contrast beautifully with the foliage. Looks very pretty planted with the white and red varieties. 3 to 4 ft., 50c each; 10 for \$4.50

HONEYSUCKLE, MORROWI (E)—(JAPANESE BUSH HONEYSUCKLE)—A spreading variety which blooms early, pure white flowers; followed by pretty red berries. 3 ft., 50c each; 10 for \$4.50

QUINCE, JAPAN (E)—Dark green foliage and showy deep scarlet flowers of good size, produced singly or in masses. Much admired and often used for hedges. 2 to 3 ft., 75c each; 10 for \$6.50

KERRIA, JAPONICA (F)—A green branched, slender, graceful shrub, with drooping branches, rich, dark yellow flowers which bloom all summer. 2 to 3 ft., 50c each; 10 for \$4.50

SNOWBERRY, WHITE

SNOWBERRY, WHITE (E)—Bushy form, small pink flowers in summer; quantities of large, white, waxy, roundish berries in autumn that remain on the plant through part of the winter. Extra large. 3 to 4 ft., 50c each; 10 for \$4.50

2 to 3 ft., 40c each; 10 for \$3.75

SNOWBERRY, RED (CORALBERRY) (E)—Low growing, spreading, graceful habit; foliage attractive; noteworthy for the beauty of its clusters of red berries which hang on the bush all winter. 3 ft., 50c each; 10 for \$4.50

A FINE BLOCK OF BUTTERFLY BUSH ON OUR VALLEY FARM—PRIVET IN FOREGROUND. (See page 24)

D—Denotes shrubs which attain height of 9 to 12 ft.; E—5 to 8 ft.; F—2 to 4 ft.

DEUTZIAS

DEUTZIA, PRIDE OF ROCHESTER (E)—Very large, double, white flowers tinged with pink in May and June. It excels in size of flower, profuse bloom and vigorous growth. The best of the Deutzias. See picture on opposite page.

3 ft., 50c each; 10 for \$4.50

DEUTZIA, GRACILIS (F)—Charming species of dwarf habit; flowers pure white. Fine for growing in front of taller shrubs.

12 to 15 in., 50c each; 10 for \$4.50

DEUTZIA, CANDIDA (E)—Pure white flowers, very double, which are so perfect in shape they are frequently used as cut flowers.

2 to 3 ft., 50c each; 10 for \$4.50

DEUTZIA, LEMOINEI (F)—Pure white flowers, borne in profusion on stout branches of upright growth. Dwarf habit, free flowering.

2 to 3 ft., 50c each; 10 for \$4.50

DEUTZIA, CRENATA—A tall growing variety having very double pink flowers.

3 to 4 ft., 50c each; 10 for \$4.50

HYDRANGAEA ARBORESCENS

HYDRANGAEA, ARBORESCENS (HILLS OF SNOW) (E)—The blooms, borne in clusters, are large; snow-white color. Foliage is finely finished. One of the finest Hydrangeas.

2 to 3 ft., 60c each; 10 for \$5.00

D—Denotes shrubs which attain height of 9 to 12 ft.; E—5 to 8 ft.; F—2 to 4 ft.

EVERBLOOMING BUTTERFLY BUSH

BUTTERFLY BUSH or SUMMER LILAC (E)—This beautiful shrub matures rapidly and produces beautiful lilac-colored flowers in profusion. Blossoms the entire summer; splendid for cutting. Should be cut back to ground every spring.

50c each; 10 for \$4.00

FORSYTHIAS

FORSYTHIA FORTUNEII (E)—Early and showy spring bloomer; flowers bright yellow, appearing before leaves. See picture on opposite page.

3 to 4 ft., 50c each; 10 for \$4.50

FORSYTHIA SUSPENS A (E)—Flowers resemble Fortuneii, growth drooping.

3 to 4 ft., 50c each; 10 for \$4.50

HYDRANGAEA, P. G. (E)—One of the most popular hardy shrubs, and also one of the finest flowering varieties. The immense heads of bloom are cream-color in bud, pure white when fully expanded, changing to pink and bronze with age, and finally to brown when frosted. Blooms in September, when very few shrubs are in flower. See illustration on opposite page.

2 to 3 ft., 50c each; 10 for \$4.50

HYDRANGAEA, P. G., TREE FORM (E)—Same as bush, but grown in tree form with single stem.

2 to 3 ft., \$1.00; 3 to 4 ft., \$1.50; 4 to 5 ft., \$2.00

SHRUBS FLOWERING EARLY 'TIL LATE

By careful selection of varieties you can have shrubs blooming in profusion during every month of the growing season—April until October, making your home constantly bright and cheerful, and benefitting the entire neighborhood.

With this in mind we have chosen for you the "Early 'til Late Collection" shown on this page, which will give you a wide range of color, form and type of flowers, and many variations in foliage.

SPIREA VAN HOUTTEII—THE MOST POPULAR FLOWERING SHRUB

SPIREAS

SPIREAS bloom with a riotous extravagance which makes them quite striking. Their individual style, color and habits of growth differ so markedly that a collection of varieties will insure bloom the entire season.

SPirea VAN HOUTTEII (E)—Without doubt the finest variety in the collection. At the flowering season in May and June the plant is covered with a mass of large, white flowers, presenting a beautiful appearance. Very hardy. One of the finest shrubs. See page 25 for illustration in color.

Extra Large—3 to 4 ft., 50c; 10 for \$4.50
2 to 3 ft., 40c; 10 for \$3.50

SPirea, PRUNIFOLIA (BRIDAL WREATH) (E)—A superb old-fashioned variety, with graceful, upright, slender branches covered with a wreath of white flowers in May.

2 to 3 ft., 50c each; 10 for \$4.50

SPirea, ANTHONY WATERER (F)—A dwarf variety of great beauty. Its broad, flat heads of red flowers continue all summer. See page 25 for illustration. 15 to 18 in., 50c each; 10 for \$4.50

SPirea, AUREA (GOLDEN) (E)—Foliage green, bordered with rich golden yellow. In June the branches are covered with double white flowers. Very conspicuous. 3 to 4 ft., 50c each; 10 for \$4.50

SPirea, BILLARDI (E)—Rose-colored flowers in spikes; blooms nearly all summer.

3 to 4 ft., 50c each; 10 for \$4.50

SPirea, BUMALDA (F)—A low growing bush with dark leaves. Blooms early in May. Flowers a delicate pink. Very desirable.

15 to 18 in., 50c each; 10 for \$4.50

SPirea, CALLOSA ALBA (F)—Valuable dwarf variety; bears white flowers all summer.

15 to 18 in., 50c each; 10 for \$4.50

SPirea SORBIFOLIA (E)—Strong growing variety from Siberia, leaves similar to Mountain Ash, with long feathery spikes of white flowers in July and August. Strikingly handsome and distinct from all others.

2 to 3 ft., 50c each; 10 for \$4.50

SPirea, THUNBERGII (F)—Foliage, yellowish-green, changes in autumn to bright red and orange. Flowers pure white, borne in feathery masses in early spring.

2 to 3 ft., 50c each; 10 for \$4.50

RED LEAVED JAPANESE BARBERRY

Such a worthwhile and novel shrub is introduced only once in a lifetime. It resembles the Barberry Thunbergii (Japanese Barberry) in every respect except in color. Full description and illustration in color on inside back cover.

10 to 15 in., \$1.00 each; 12 for \$10.00

Extra large, 2 to 3 ft., \$1.50 each

BARBERRY THUNBERGII (JAPANESE)—Used as a shrub as well as hedge. Excellent in front of taller shrubs. The fall colorings are splendid. See description, page 18.

18 to 24 in., 30c each; 10 for \$2.50

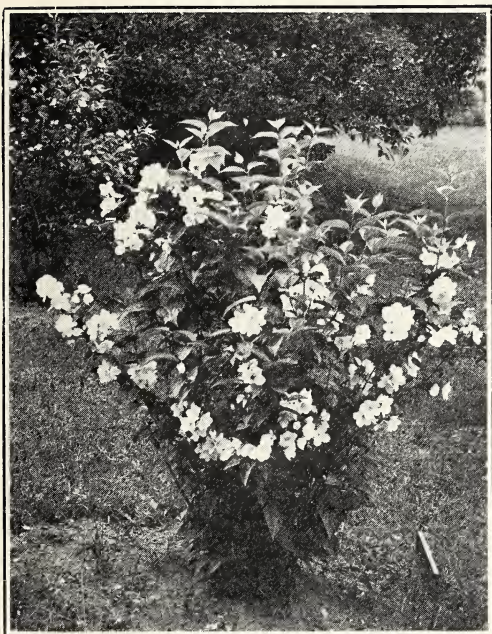

2 to 3 ft., 40c each; 10 for \$3.00

CUT-LEAVED SUMACH (E)—A very striking plant, of moderate size, with deeply cut leaves, resembling fern leaves; dark green above and glaucous below, and turning to a rich red in autumn. Especially beautiful in mixed evergreen planting.

3 to 4 ft., 60c each; 10 for \$5.00

The things I got this spring are coming fine.
September 19, 1927. Mrs. Nettie M. Foster
Wolcott, N. Y.

D—Denotes shrubs which attain height of 9 to 12 ft.; *E*—5 to 8 ft.; *F*—2 to 4 ft.

NEW PHILADELPHUS VIRGINALIS

NEW PHILADELPHUS VIRGINALIS (E)—This magnificent new variety is the most beautiful and shapely of the mock oranges. The sweetly scented clusters of pure white blooms are double and unusually large. Foliage is good and of compact habit. Blossoms in June and continues until fall.

3 to 4 ft., 85c each

OTHER SYRINGAS (Mock Orange)

SYRINGA, GOLDEN (F)—Golden-yellow foliage, keeping its color the entire season.

18 to 24 in., 75c each; 10 for \$6.00

SYRINGA CORONARIUS (E) — Well-known old-fashioned shrub, with pure white, highly-scented flowers; blooms among the earliest of the family.

3 to 4 ft., 50c each

SYRINGA GRANDIFLORUS (D)—Large showy white flowers, slightly fragrant. Branches somewhat straggling.

2 to 3 ft., 50c each; 10 for \$4.50

14 Choice Shrubs—\$5.00 by Express

WEIGELAS (Diervilla)

WEIGELA CANDIDA (E)—Flowers pure white and produced in great profusion in June, blossoms through the summer; valuable variety.

3 to 4 ft., 50c each; 10 for \$4.50

WEIGELA, EVA RATHKE (F)—Flowers brilliant crimson. A very attractive variety. Almost a continuous bloomer.

18 to 24 in., 75c each; 10 for \$6.50

WEIGELA, VARIEGATED (F)—Of dwarf habit; finely variegated foliage which lasts the entire season; contrasts nicely with its rose-colored flowers. One of the best.

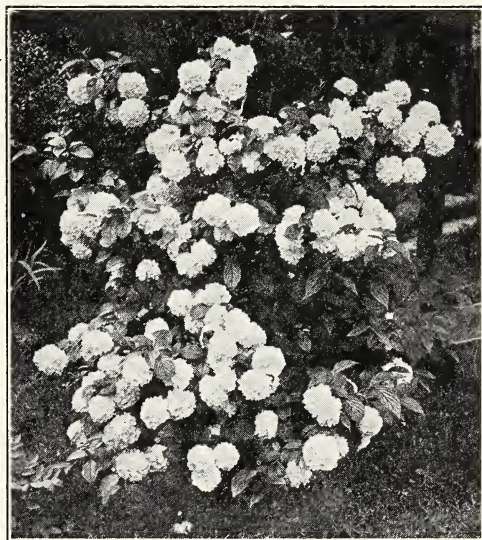

18 to 24 in., 75c each; 10 for \$6.50

WEIGELA ROSEA (E)—An elegant shrub, with fine rose-colored flowers; of erect, compact growth; blossoms in June.

3 to 4 ft., 50c each; 10 for \$4.00

STEPHANANDRA FLEXUOSA (F)—Suitable for borders of other shrubs. Branches angular, even zig-zagged, with handsome deep lobed foliage which colors to purplish red; and panicked racemes of white flowers in June.

3 ft., 60c each; 10 for \$5.00

JAPAN SNOWBALL

SNOWBALL, JAPAN (VIRBURNUM PLICATUM) (E)—Erect, compact shrub, covered with large balls of snow white flowers in June. Foliage dark green.

2 to 3 ft., \$1.25 each; 10 for \$10.00

SNOWBALL, COMMON (D)—A well known favorite shrub producing its snowy-white flowers in large balls in June.

2 to 3 ft., 75c each; 10 for \$6.50

D—Denotes shrubs which attain height of 9 to 12 ft.; E—5 to 8 ft.; F—2 to 4 ft.

PAEONY FELIX CROUSSE

PHLOX RHEINLANDER (see page 30)

PERENNIALS are like old family friends. They never forsake us, but come back year after year to brighten our gardens with their beauty and friendly loveliness. The tops freeze down during the winter but they come up anew and fresh in the spring and increase in size and splendor as the years pass.

Keeping the flowering stalks cut off after blossoming prolongs the blooming period. A mulching of straw manure, leaves or other litter during the winter is desirable.

PAEONIES

Two-year-old roots

The Paony is a noble flower, almost rivaling the Rose in brilliancy of color and perfection of bloom. Hardy as an oak in the most severe climate. Each year adds to their size and beauty. We have selected only the choice varieties.

By Parcel Post add 5c per plant
EDULIS SUPERBA—Large, bright pink mixed with lilac. Very free bloomer.

60c each
FELIX CROUSSE—Brilliant red; fragrant; one of the best. 75c each

CARANI—White, flushed delicate pink. 50c each

FESTIVA MAXIMA—Most popular white. Large snow-white, flecked crimson in center. Early; vigorous. 75c each

Paenies continued on page 30.

CHINESE LANTERN PLANT

CHINESE LANTERN PLANT—Dense bushes, growing about 2 feet high producing bright orange-scarlet, lantern-like fruits which may be cut for decorations that last all winter. 25c each; 5 for \$1.00 not prepaid. By mail postpaid 30c each; 5 for \$1.25.

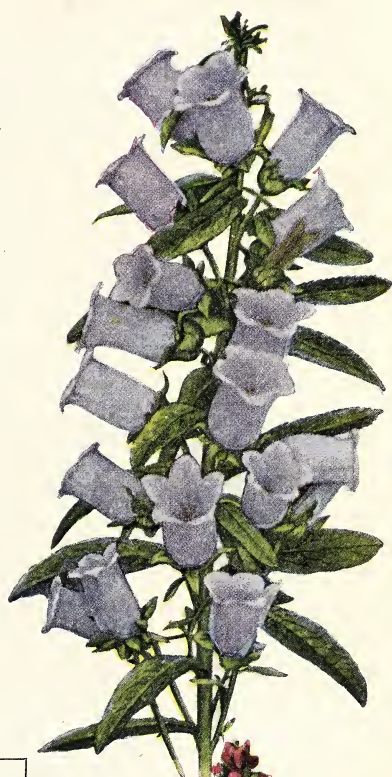

CAMPANULA (CANTERBURY BELLS)—Free blooming over long season; adapted to any garden soil. Good for cutting. Blue and white. *Illustration at right.* 25c each; 5 for \$1.00 not prepaid. By mail postpaid, 30c each; 5 for \$1.25.

LARKSPUR (DELPHINIUM)—Long showy spikes of various delightful shades of blue blooming from June until frost. *Illustration below (4).* 25c each; 5 for \$1.00 not prepaid. By mail postpaid, 30c each; 5 for \$1.25.

GOLDEN GLOW—Large, showy plant, blooms from early summer until frost. Double, golden-yellow flowers. *Illustration below (5).* 25c each; 5 for \$1.00, not prepaid. By mail postpaid 30c each; 5 for \$1.25.

FOXGLOVE (DIGITALIS)—Very popular and desirable as a background for lower growing plants. The stately racemes of flowers often two feet long. *Illustration below (6).* 25c each; 5 for \$1.00, not prepaid. By mail postpaid 30c each; 5 for \$1.25.

SOUR CHERRIES

EARLY RICHMOND—One of the most valuable and popular Cherries for cooking purpose. A good old variety that yields marvelous crops in the garden. This hardy Cherry fruits on young trees soon after planting. Early Richmond is a great favorite throughout the West and Northwest, where only hardy varieties succeed. The tree is a free grower; hardy, healthy, and very productive. Hundreds of tons of Early Richmond Cherries are now used in making Cherry wine. This is a new market for Sour Cherries which will keep the price of Cherries up. Some growers got ten to twelve cents per pound for their crop last year.

MONTMORENCY—A beautiful, large, red sour Cherry. The fruit is clear, bright red and of good size. Flesh is of fine quality, sub-acid. The trees are clean growers and prolific bearers. No matter how unfavorable the season may be, Montmorency can be depended upon for a full crop. It is a good shipper, very attractive looking and always brings good prices. The canning factories use quantities of them and the demand is greater than the supply. Fruit ripens ten days later than Early Richmond.

ENGLISH
MORELLO

ENGLISH MORELLO—Best late sour Cherry. Medium sized, very dark red color, sometimes nearly black. The flesh is of good quality and it being acid in flavor makes it valuable for canning and preserving. Tree is a small grower with light limbs and trunk. Fruit ripens about two weeks later than Montmorency.

MONTMORENCY—BEST OF THE SOUR CHERRIES

SWEET CHERRIES

SWEET varieties of Cherries succeed best in sandy or gravelly soil, well drained. Avoid low or wet ground. The trees are very large and spreading.

PRICES OF SWEET CHERRY TREES *All Budded on French Stock*

GOV. WOOD—One of the best cherries; fruit large, yellow, nearly covered with bright red. Flesh light, tender and juicy. "Has a taste all of its own." We like it—so will you.

NAPOLEON—Sometimes called Royal Ann. An ideal light-colored sweet cherry. Very attractive coloring with pale amber cheek, fruit large, heart-shaped; flesh firm, and of delightful flavor. Splendid shipper and fine for canning. Tree is a fine grower and immense bearer.

SCHMIDT'S BIGARREAU—Very large cherry, sweet, of especially good flavor. The flesh is dark, tender and very juicy. It is an excellent shipper and brings good money on the market. Late.

WINDSOR—The standard of excellency. The hardiest of the sweet varieties. Large, very dark red, with firm, tender, juicy flesh. Prolific bearer.

BLACK TARTARIAN

PROFIT FROM CHERRIES

A two-year-old Cherry Tree will bear a gallon of Cherries. A ten-year-old tree will bear from 100 to 200 lbs. One acre will grow 100 trees; figuring 150 lbs. to the tree this acre will produce 15,000 lbs. If sold at 7c per lb., will bring a return of \$1,050 per acre.

WHY NOT PLANT CHERRIES?

BLACK TARTARIAN—Early to middle of June. Fruit large with small pit; heart-shaped, very dark, almost black; tender, juicy Sweet Cherry of surpassing quality, excellent for table use and canning; the tree is an upright, dense grower, remarkably vigorous and regular bearer of immense crops.

YOUNG CHERRY ORCHARD IN BLOOM—PLANTED WITH WOOD'S QUALITY TREES

WOOD'S QUALITY PEACHES

PEACH growing is a great industry. The ease with which these trees can be grown, their freedom from disease, the short period before they become productive, and the immense demand for the fruit make peach growing very profitable. Invaluable also for the home garden.

Our trees are all budded from bearing orchards, are free from disease and have extra fine roots.

Guaranteed true to name. See order blank.

HALE

HALE—The skin is deep crimson and without fuzz; flesh golden-yellow, firm and has delicious flavor. Good keeper and shipper.

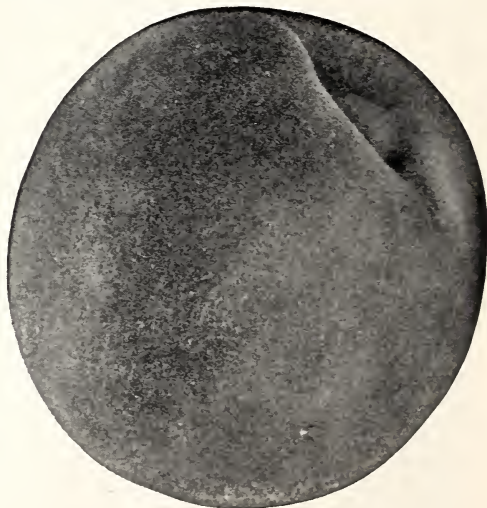

CARMAN

CARMAN—Large, early white peach with deep blush; spicy flavor. Prolific bearer; good market variety.

CHAMPION—Large white freestone peach; red-cheeked, sweet, rich, juicy. August.

EARLY CRAWFORD—Large, rich yellow with red cheek; has all the characters that gratify the taste. One of the best in quality.

ELBERTA—Large, yellow, red-cheeked; valuable or garden. Greatest commercial peach.

ROCHESTER

ROCHESTER — Earliest yellow peach; red-cheeked; juicy and delicious. Strong grower and early bearer.

LATE CRAWFORD—Superb yellow peach; of large size and excellent quality; not heavy bearer.

The trees arrived today and found them satisfactory.
Thanking you for same.
Holtsville, N. Y.

NEW WILMA PEACH

Is Reported as Elberta Rival

Geneva Station Says Wilma Yellow-fleshed Variety Fills Long Felt Need

THE new peach for which fruit growers of New York State have been looking has been discovered in the Wilma, a yellow-fleshed variety that will rival the favorite Elberta, say horticultural experts at the New York State Agricultural Experimental Station at Geneva. The new variety gains double favor by ripening a week following the Elberta season. Trees vigorous, productive, and hardy enough to withstand the coldest winter recorded in half a century in New York State.

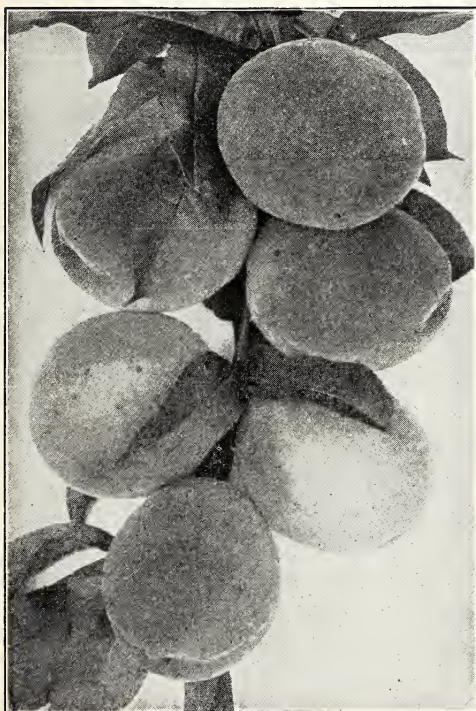

The fruit is almost as large as Elberta, about the same color, and of better quality. It is destined to become a strong favorite in the peach industry of this state, the horticulturists say.

Out stock of Wilma is limited.

BRANCH FROM WILMA PEACH TREE

A 16-YEAR-OLD DR. WORCESTER PEACH

This photograph of the late Dr. Worcester and one of his famous Peach trees was taken about a month before the fruit was fully ripened.

DR. WORCESTER

"The 20th Century Peach"

The *Dr. Worcester* Peach is of a very large size, color is a beautiful golden yellow, overlaid with red. Flesh is yellow, firm and juicy, and the flavor, which is its chief merit, is rich and sweet. Skin is firm, making it a good shipper and keeper. Tree is hardy and a late bloomer, so late frosts seldom injure it. It is a healthy, vigorous grower and good bearer. These qualities make the *Dr. Worcester* Peach a most valuable commercial variety.

Woodlawn Nurseries have the exclusive sale of this variety. Each tree or bundle of trees we sell bears a Special Guarantee Seal. Past experience has shown that it is wise to order this variety early because the demand is so great that it is necessary each year to refuse several hundred orders. See page 43 for colored illustration.

BARTLETT—Best and most popular of all pears for market and home use. Color clear yellow with a faint blush on exposed cheek. Fruit very large, thin skinned; flesh buttery and melting, rich musky flavor. Its splendid qualities render it a general favorite everywhere. Tree strong grower, bears young and abundantly. August and September.

CLAPP'S FAVORITE—Very large; pale lemon-yellow color, with bright crimson cheek. Flesh finely grained, juicy, melting and buttery.

FLEMISH BEAUTY—A pale yellow Pear almost covered with light russet, which becomes reddish-brown when ripe. Fruit is large and of sweet rich melting flavor.

THE
FAVORITE
DWARF
PEAR

DUCHESS—Most popular of all dwarfs and most widely grown. Great money getter. Hardy and bears uniformly big crops. Fruits large; color dull greenish yellow; spotted with russet, flesh white, rich and of good quality.

SECKEL DWARF—Valuable in standard and dwarf variety. Fruit same on either tree.

SECKEL—Fruit small; skin rich yellowish brown, with a deep brownish red cheek. Very juicy; one of the richest and highest flavored pears known. September and October.

BUERRE D'ANJOU—Great money maker. Fruit large, buttery and melting; keeps well.

SHELDON—Of large size, roundish shape, greenish yellow color, covered with light russet. Very juicy, melting and tasty flavor.

Prices of three varieties above same as on page 43.

BUERRE BOSCH—Excellent quality, juicy and melting. Color golden russet. October. Fine for home garden and brings higher prices than any other pear on the market.

BARTLETT—Dwarf similar to standard variety.

CLAPP'S FAVORITE—Good dwarf variety.

RHUBARB (Pie Plant)

Strong Two Year Old Roots

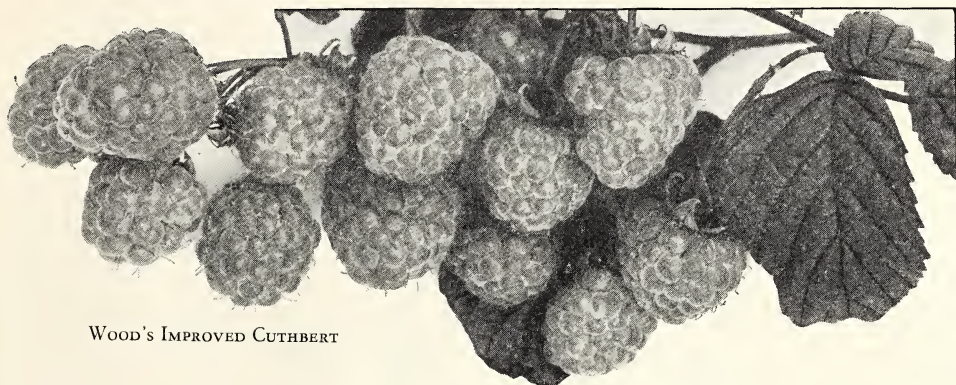

WOOD'S STRAWBERRY
RHUBARB

Rhubarb is so easily grown and is useful in so many different ways for pies, sauces, jellies, cakes, puddings, etc., that every garden should have at least a few roots. Easily preserved and kept fresh the entire season. Cut stalks into small pieces and put them into fruit jars. Fill the jars with cold water and seal up tightly until ready to use.

15c each; \$1.25 per 10;
\$10.00 per 100.

By mail postpaid to 4th zone add 5c each; 25c per 10.

WOOD'S IMPROVED CUTHBERT

BERRIES

BLACK RASPBERRIES

PLUM FARMER—Has been thoroughly tested in Western New York, where it is a great favorite for market and home use. Fruit very large, often an inch in diameter. Brings highest market price.

BLACK DIAMOND—One of the best for home and market use. For drying and evaporating it excels all others. Fruit large and sweet.

Prices of above 2 varieties: 2 for 25c; \$1.00 per 10; \$1.50 per 25; \$3.50 per 100; \$25.00 per 1000.

NEW GIANT BLACK RASPBERRIES

NEW GIANT BLACK RASPBERRY—This recently developed variety is meeting with great favor among commercial growers, being considered by some even better than the popular Plum Farmer. Strong grower and hardy; fruit unusually large and firm. Long bearing season.

2 for 35c; \$1.25 per 10; \$2.00 per 25; \$6.50 per 100.

RED RASPBERRIES

Prices of all varieties, except as noted

2 for 25c; \$1.00 per 10; \$1.50 per 25; \$3.50 per 100; \$25.00 per 1000.

By mail postpaid to 4th zone, add 10c per 10; 20c per 25.

WOOD'S IMPROVED CUTHBERT—Large red berry; flesh firm and of rich flavor. We recommend it for either home use or field culture as it is one of the leaders on all markets.

ST. REGIS (EVERBEARING)—A new acquisition to the Red Raspberry family. Fruit commences to ripen with the earliest and continues on young canes until October. Large, bright crimson, flesh firm and meaty. Good shipper and very prolific.

COLUMBIAN—Purple berry; of rich sprightly flavor. It is undoubtedly the best raspberry in cultivation for canning as it retains its color, form and flavor. Most productive of all raspberries.

See page 46 for New Latham Red Raspberry.

BLACKBERRIES

2 for 35c; \$1.25 per 10; \$1.50 per 25; \$4.00 per 100; \$35.00 per 1000.

By mail postpaid to 4th zone, add 10c per 10.

ELDORADO—A valuable variety; medium size, jet black, melting, sweet and rich; hardy and very productive.

BLOWER—"The giant of all blackberries." An upright grower; very hardy and enormously productive. Commences to ripen about the middle of July and continues for a long period.

BERRIES BY PARCEL POST

If you want berries by parcel post add 10c per 10 or 20c per 25 for postage, prepaid up to and including the 4th zone.

NEW LATHAM RED RASPBERRY

LATHAM

The New Big Red Raspberry

PROF. W. H. ALDERMAN, Chief, Division of Horticulture, University of Minnesota, says of the Latham Raspberry:

"The variety not only is resistant to our winter conditions, but is one of the most productive raspberries with which we are familiar.

"Its attractive coloring and firmness give it such favorable appearance on the market that it ordinarily commands a premium of fifty cents a case over the price of the ordinary raspberry.

"Free from Mosaic disease this raspberry can hardly be excelled by any which may be grown in this or adjoining states."

OUR LATHAM RASPBERRIES DO NOT "RUN OUT"—The chief cause of raspberries "running out" is Mosaic disease which weakens ordinary plants until they become unprofitable. *Our Latham Raspberries are Mosaic-free and acceptable anywhere under the most rigid inspection.*

LATHAM IS PERFECTLY HARDY—As far north as Winnipeg, Canada, Latham has proved hardy and never winter-kills.

ITS PRODUCTIVENESS IS TRULY SENSATIONAL—Figures of actual yields show that Latham excels all other varieties in quantity of yield. There are records of fields that have produced over \$1000.00 per acre each season.

2 for 35c; \$1.25 per 10; \$2.00 per 25; \$6.50 per 100

By mail postpaid to 4th zone, add 10c per 10; 20c per 25.

ASPARAGUS

(Two Years Old)

One of the most delicious vegetables, easily grown from our strong two year old roots.

85c per 25; \$2.00 per 100; \$15.00 per 1000.

BARR'S MAMMOTH

By mail postpaid to 4th zone, add 10c per 25; 15c per 50; 25c per 100.

BARR'S MAMMOTH—Robust and vigorous, and throws large shoots which remain white above ground as long as they are fit for cutting.

CONOVER'S COLOSSAL—Tender and finely flavored.

PALMETTO—An early and great yielder and very even and regular in growth. It has been tested both North and South and has proved entirely successful in every way.

WOOD'S GRAPE VINES

TWO YEARS OLD, EXTRA STRONG, WELL-ROOTED

EVERY city and country garden should have a dozen or more Grape vines. They can be trained up the side of any building or along the garden fences, occupying but little room and furnishing an abundance of healthful fruit.

BEST STANDARD VINES

By mail postpaid to 4th zone, add 5c each; 25c per 10.

Write for special prices on large lots.

10% Discount on all cash orders received on or before March 1, 1928

CONCORD—More Concord plants by vineyardists than all other varieties combined. Berries large, black, covered with a rich bloom.

15c each; \$1.40 per 10; \$10.00 per 100

LINDLEY—Dark red, medium large berries; flesh tender, sweet and aromatic; ripens early.

20c each; \$1.75 per 10; \$15.00 per 100

LUCILE—Bright red. Very hardy and vigorous. Bunches and berries medium to large. Very productive; early bearer; good shipper.

25c each; \$2.00 per 10; \$17.50 per 100

MOORE'S EARLY—Bunch large, berries black with a heavy blue bloom; quality better than the Concord.

20c each; \$1.75 per 10; \$15.00 per 100

NIAGARA—Berries white, larger than Concord, sweet to center. Skin thin but tough. Ripens before Concord.

20c each; \$1.75 per 10; \$15.00 per 100

WORDEN—Berries, black and larger than Concord. Ripens a few days earlier; superior in flavor.

20c each; \$1.75 per 10; \$15.00 per 100

NEW ONTARIO GRAPE

NEW ONTARIO GRAPE—They are of excellent flavor, juicy, tender, aromatic and sweet. The clusters are large and the berries are nearly as large as the Niagara.

The Ontario combines good vigorous habits of vine characteristic of the American Grape and the splendid quality of fruit found in European varieties. It is a prolific bearer and strong grower.

Ontario meets a long felt demand for a very early grape as it fruits the last of August, fully two weeks earlier than Niagara.

The New York State Experiment Station, where this grape originated, says of it, "Ontario is giving satisfaction wherever grown."

75c each; 10 for \$6.50

By mail postpaid to 4th zone add 5c each or 25c per 10.

We cannot tell you in mere words how wonderfully satisfactory our orders were. Both last spring and this fall we have just felt as though you handed us our money's worth and more, for the pleasure we received cannot be measured by a money standard.

WOODLAWN GRASS SEED MIXTURES

OUR Famous Woodlawn Grass Seed Mixture is composed of the very best grades of Blue Grass, Red Top, White Clover and other desirable varieties used in correct proportions to produce a thick sod of rich, deep green throughout the entire growing season. No cheap light seed of any description is used. So when you buy this mixture you are paying for seed which will grow, and not a large percentage of chaff, dirt and inert matter, such as will be found in cheap mixtures. Critical landscape gardeners use thousands of pounds of this mixture each year. Use one pound for each 300 sq. ft.

FERTILIZERS

Woodlawn Pulverized Sheep Manure

Very Best Fertilizer for Lawn and Garden

For private grounds, lawns, tennis courts, parks and golf courses, you will find our Pulverized Sheep Manure a most effective fertilizer. It is light, dry, odorless, free from seeds and all foreign matter. It will not burn the grass or plants, and quickly disappears from the surface when your lawn and garden are watered.

Pulverized Sheep Manure will keep your lawn green and make your garden produce the finest vegetables and flowers.

New Red-Leaved Japanese Barberry

This new Barberry is very unusual and different from any shrub developed in many years. Its foliage is a rich, lustrous, bronzy-red. It resembles the Barberry *Thunbergii* in all respects except color. Full exposure to the sun is absolutely necessary to make the coloring become intense and brilliant as the summer advances,

CERTIFICATE—No. 18

State of New York DEPARTMENT OF FARMS AND MARKETS

BERNE A. PYRKE, *Commissioner*

CERTIFICATE OF INSPECTION OF NURSERY STOCK

This is to Certify that the nursery stock of Allen L. Wood of Rochester, County of Monroe, State of New York, was duly examined in compliance with the provisions of Article 14 of the Farms and Markets Law, and was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose scale or other dangerously injurious insect pest or pests. This certificate expires September 1, 1928.

Dated, Albany, N. Y., September 1, 1927.

BERNE A. PYRKE, *Commissioner*.

By GEORGE G. ATWOOD,
Director, Bureau of Plant Industry.
